

Prasanna

Frontend Developer

✉ prasannapopz45@gmail.com ☎ +91 8428132601 📍 Chennai, India 🔗 prasanna.cc 🌐 linkedin

Profile

Detail-oriented and performance-driven Frontend Developer with 2+ years of experience building responsive, accessible, and high-performance web applications using React.js, Next.js, JavaScript, and TypeScript. Skilled in developing reusable components, integrating RESTful APIs, and optimizing performance across modern frontend architectures. Passionate about UI/UX best practices and actively expanding into full-stack development. Focused on writing clean, maintainable code, following industry standards, and collaborating effectively in agile, cross-functional teams.

Professional Experience

- Frontend Developer**, *Genrichers Innovations Pvt Ltd.* Jul 2023 – May 2025 | Chennai, India
- Built and maintained scalable, modular components using React.js, Next.js, Tailwind CSS, and Material UI, resulting in improved code maintainability and faster development cycles.
 - Collaborated closely with UI/UX designers and backend engineers to convert Figma designs into responsive, pixel-perfect web interfaces compatible across all screen sizes and devices.
 - Implemented server-side rendering (SSR) and lazy loading strategies in Next.js to enhance performance and improve user experience across dynamic pages.
 - Integrated multiple RESTful APIs with structured error handling and fallback UIs, increasing frontend reliability and user satisfaction.
 - Contributed actively in Agile sprints, including sprint planning, daily standups, and peer code reviews, supporting clean code practices and consistent delivery.
 - Contributed to backend development using Node.js and PostgreSQL by creating and integrating API endpoints, demonstrating adaptability in full-stack collaboration.

Skills

Projects

Impacteers, *Tech Stack: Next.js, React, Tailwind, Material UI* 📄
Contributed to the development of a scalable web platform by building responsive UI components, optimizing frontend performance, and integrating RESTful APIs. Focused on enhancing user experience through clean design implementation and modular architecture. Strengthened proficiency in modern frontend frameworks and gained valuable hands-on experience in real-world production environments.

Personal Portfolio Website, *Tech Stack: Next.js, Tailwind CSS, ShadCN UI* 📄
Designed and developed a fully responsive portfolio website to showcase personal projects, technical skills, and experience. Focused on clean UI, consistent theming, and cross-device compatibility. Gained hands-on experience in deployment, hosting, and performance optimization by successfully launching the site using modern web technologies.

Education

MCA, *Bishop Heber College* 2021 – 2023
Graduated with a percentage of 75.5.

Certificates

Next.js 15 & React - The Complete Guide — Completed an in-depth course covering server-side rendering (SSR), static site generation (SSG), API routes, authentication, and advanced state management. Built full-stack applications using React Hooks, Next.js App Router, and Context API, gaining hands-on experience in building scalable, high-performance web applications with modern frontend architecture.

Interests

Full-Stack Development — Passionate about building robust and scalable web applications using both frontend and backend technologies. Interested in working across the entire software development lifecycle, including planning, design, implementation, and deployment. Focused on continuously improving technical skills to deliver innovative and complete solutions to real-world problems.
